## Nutrition Program Funding

The Government of Manitoba has committed \$30 million to roll out a universally accessible nutrition program for 2024-25. The majority of funding will go directly to school divisions, while some will be available through grants to support eligible after school, summer, and school break programs.

If you are a charitable or non-profit organization, working in partnership with a publicly funded school division, that provides after-school, summer, or school break programming for school-aged children and youth you may be eligible. [Learn more here](#)
