

Materials & Supplies Guideline

(January 18, 2008)

City of Winnipeg Parks and Open Space Division & Community Centres

City supplies the following materials to Community Centres (within budget constraints):

- 1) Top dressing for turf areas
- 2) Ball diamond mix (City spec.)
- 3) Other soil mixtures
- 4) Grass seed
- 5) Aggregates (crushed limestone, sand)
- 6) Bleacher or goal frame paint
- 7) Park signage
- 8) Wrench to install soccer goal ground screws
- 9) Water box back flow preventers & meters
- 10) Sod to repair goalmouths and centre circles.
- 11) Turf Fertilizer
- 12) Sandbox sand
- 13) Playground play stone

The following materials are not available through the City:

- 1) Shakopee clay or brick mix for ball diamond infields
- 2) Asphalt materials
- 3) Water
- 4) Athletic field Line marking paint
- 5) Fencing materials (chain link/pickets/bollards)
- 6) Equipment or tools
- 7) Herbicides/fungicides/insecticide/other pesticides

Standard amount of material supplied per year (within budget constraints from year to year):

(Amounts required are assessed and tracked by the area Technician or Foreman)

- Turf top dressing: as required
 - 40 CU YDS of lawn dressing every two years.
 - Spot repair – 5 YDS or less as required
- Grass Seed: As required
 - 1 lb. of grass seed per 1,000 ft sq
 - 1 – 50 lb. bag equals one whole field; 1/3 of the field is usually done at one time
- Ball Diamond Mix: usually 2 – 3 yds per diamond
 - 10 yds or less per full skinned
- Bleacher & goal frame paint: as required
